South Pars Gas Field

ABOUT ME

Planning & Project Manager with over **25 years of experience** in Iran's oil, gas, and petrochemical industries. Specialized in managing large-scale refinery, petrochemical, and offshore gas platform projects in special economic energy zones (Assaluyeh, South Pars, Bandar Abbas). Experienced in commissioning and production of more than 15 industrial phases, from construction to final handover to the client. Proficient in all engineering disciplines including piping, civil, heavy equipment installation, electrical & instrumentation, fixed and floating roof storage tanks.

Full Mastery of All Specialized Areas:

- Preparation of various management and technical reports
- Setting up PMS (Project Measurement System)
- Scheduling in Primavera and MS Project
- Preparing site action plans and contractor invoices
- Setting up management dashboards and delay analysis
- Preparing contractor claims
